Multiplatform Application Developer. Experience in real-world projects, both mobile and web. Participated in the development of apps with Flutter, and also worked with technologies such as Java, React, Kotlin, Firebase, and JavaScript. I am eager to continue growing as a developer, with a special focus on backend development, while remaining open to exploring other opportunities that allow me to keep learning from every challenge.

PROFESSIONAL EXPERIENCE

TheBubbleHub

Mobile Developer Intern

Málaga, Spain

March 2025–June 2025

- Participated in the development and maintenance of mobile applications using Flutter (Dart).
- Rebuilt a corporate website using React, improving its structure, design, and adaptability.
- Collaborated with the design team in Figma, learning to accurately interpret and implement designs.
- Used Git and GitHub for version control and teamwork under agile methodologies.
- Implemented a login system with Firebase Authentication for the company's internal CMS.
- Developed communication and teamwork skills, collaborating efficiently with backend, design, and marketing teams.

EDUCATION

Davante Medac
